

Kenyon Great Rake II MADE IN THE USA

The name says it all...this is a "great rake" for raking and leveling. The long curved teeth provide more efficient grading on the backstroke, while the deep grading edge allows for superior leveling. All aluminum construction with a 66" red powder-coated aluminum handle and wrap-around bracing for added strength.

YardPro Rake MADE IN THE USA

Similar to the Field Rake, the YardPro head is designed with an excellent grading and striking edge and rounded, non-gouging teeth. Its 66" blue powder-coated aluminum handle provides extra comfort, while its push-pull bracing is twisted in opposite directions to eliminate head wobble. Available in point-of-purchase (POP) packaging.

Dual Purpose Rake MADE IN THE USA

A Midwest Rake exclusive. This innovative and versatile tool has two teeth profiles. The short teeth are used for breaking up hard packed clay and grading, while the long teeth are for wet clay and general raking. Comes with a 17", 24" or 36" head and sturdy wrap-around braces. The powder-coated aluminum handle with a 6" non-slip vinyl grip provides for extra comfort. Handle is available in blue or red.
