

# BULLHEAD

FOR PROFESSIONAL RESULTS

by Midwest Rake Company LLC

## Trenching Shovels

- Extra heavy-duty 11 gauge steel heads
- Wood reinforcing core at head-to-handle connection of standard yellow fiberglass handles
- Solid fiberglass reinforcing core at head-to-handle connection of color-coded extended length fiberglass handles
- 90° full forward step is in-line with natural foot leverage
- Available with 48" standard yellow fiberglass, 47" standard wood or 53" extended length thick walled fiberglass handles
- Color-coded labels on all handles
- 53" extended length handles are permanently color-coded thick walled fiberglass
- 5" double-dipped vinyl grips (Fiberglass handles only)

53" Extended Length color-coded fiberglass handle for greater reach and better leverage

**Extra Heavy-Duty 11 gauge** closed back heat treated steel heads have reinforcing ribs for more resistance to wear and abuse

Color-coded labels on all handles
